Novel 2-D Phosphorene-Based Drug Delivery System for Anti-HIV Zidovudine Drug to Enhance the Therapeutic Effects: A First-Principles Based Study

Sensing applications of graphitic carbon nitride (C₆N₈) for nitrogen oxides: A DFT study

M Saad Mahmood

Computational Chemist

Toba Tek Singh, Punjab, Pakistan

Summary

As a scientific researcher, I am applying computational chemistry to advance the field of sensing, drug delivery, and photovoltaic applications, which is essential for sustainable energy and environment solutions.

My core competencies include theoretical and computational chemistry, machine learning, and data analysis, which I use to design, model, and optimize novel materials. I am passionate about collaborating with multidisciplinary teams and sharing my knowledge with students and peers. My goal is to contribute to the scientific and technological innovation that can address the global challenges of our time.

Experience

Materialen Fisika Zentrua (CSIC-EHU)

Visiting Researcher

October 2025 - Present (1 month)

San Sebastián, Basque Country, Spain

I will be working with Professor Frederick Schiller's experimental group as a computational physicist, focusing on validating and interpreting experimental results.

Università degli Studi di Trieste

Doctoral Student

January 2025 - Present (10 months)

Italy

University of Agriculture, Faisalabad

3 years

Scientific Researcher

July 2022 - June 2025 (3 years)

Faisalabad, Punjab, Pakistan

As a scientific researcher, I am applying computational chemistry to advance the field of sensing, drug delivery, and photovoltaic applications, which is essential for sustainable energy and environment solutions.

Python Web Application Developer for Chemical Analysis

July 2022 - June 2025 (3 years)

Faisalabad, Punjab, Pakistan

I specialize in developing Python web applications for data analysis, with a focus on automating the extraction of critical chemical data from first-principle simulation software.

Fiverr

Search Engine Optimization Expert

February 2021 - June 2025 (4 years 5 months)

Pakistan

I am an SEO expert with a good track record of helping businesses and boost their online presence. From researching keywords and using SEO tactics I can help you to create quality content that stands out from the crowd.

Education

University of Agriculture, Faisalabad

Master's degree, Chemistry · (October 2021 - May 2023)

Government College University, Faisalabad

BS, Chemistry · (August 2016 - August 2020)

Government College University, Faisalabad

Bachelor's degree, Analytical Chemistry · (2016 - 2020)

Università degli Studi di Trieste

Doctor of Philosophy - PhD, Condensed Matter and Materials

Physics · (January 2025)
